

COMPANY PROFILE

CHOICE OF EXCELLENCE

ABOUT DIAMOND SPECTRUM

Welcome to Diamond Spectrum, a member of Taawon Group – Your Premier Partner in Laboratory Solutions!

At Diamond Spectrum, we specialize in providing an unparalleled range of high-end laboratory and industrial equipment, disposables, and chemical products. Our commitment revolves around delivering excellence, compatibility, and exceptional value and support.

Discover a world of reliable solutions tailored to elevate your laboratory experience. Diamond Spectrum is here to redefine standards and exceed expectations in the pursuit of scientific excellence.

OUR VISION

To be the leading partner in advancing laboratory and industrial technologies across the region, recognized for empowering innovation with a comprehensive range of reliable, cutting-edge systems and solutions.

OUR MISSION

Our mission is to empower our customers' success by delivering superior-quality laboratory and industrial equipment, with high customer satisfaction rate, enabling measurable improvements in their operational performance each year

TAAWON GROUP JOURNEY

Since its establishment, Taawon Group has grown from a local supplier into a trusted regional leader in laboratory & process solutions. Over the years, we have expanded our portfolio with world's leading partners, and introduced innovative technologies to the Middle East market. Today, our legacy is built on decades of expertise, innovation, and unwavering commitment to customer success.

SERVICES & TECHNICAL SUPPORT

At TTSL, we believe that delivering High-end products is only the beginning, what truly defines our value is the service that follows.

Our dedicated service department ensures that every instrument we provide continues to perform at its best throughout its entire lifecycle.

From installation and training to calibration and preventive maintenance, our certified team of factory-trained engineers provides comprehensive technical support that guarantees reliability, accuracy, and compliance with international standards.

We take pride in offering our customers complete peace of mind, knowing that their instruments are operating under optimal conditions, supported by genuine expertise and long-term commitment.

Installation

Every successful operation starts with proper installation. Our service engineers perform complete system installation and commissioning that follows strict manufacturer guidelines to ensure safe operation, optimal performance, and readiness for immediate use.

Training

Our engineers are manufacturer-certified to deliver full operational training on all equipment supplied. Each training session is tailored to user experience level, covering instrument setup, operation, application methods, software usage, and safety procedures.

SERVICES & TECHNICAL SUPPORT

Preventive Maintenance

Our maintenance programs include scheduled inspections, performance verification, cleaning, lubrication, and functional testing.

Calibration Services

We offer precise and traceable calibration services using certified reference standards to ensure all instruments perform within their specified accuracy limit.

IQ, OQ, PQ Qualification

Our team conducts Installation Qualification (IQ), Operational Qualification (OQ), and Performance Qualification (PQ) to verify that every instrument is properly installed, functions as intended.

Repair Services

Our service engineers are trained to perform efficient troubleshooting and repair with quick response times and minimal equipment downtime, restoring instruments to full functionality.

Annual Service Contracts

We offer customized annual maintenance contracts designed to meet the needs of each customer. By signing an annual contract, customers can maintain consistent performance, cost predictability, and uninterrupted laboratory operations.
